

New partnership for the KALI division

San Giovanni in Croce, 28/03/2023

Subject: *ProPHOS Chemicals improves the distribution of KALI's flame retardant products by partnering with Gelsenchem Chemical Product GmbH (GCP)*

ProPHOS Chemicals is pleased to announce the collaboration with Gelsenchem Chemical Products GmbH, a German company specialized in the distribution of chemicals and raw materials based in Hamburg.

With this agreement, ProPHOS Chemicals, in the division of KALI Fireproofing, will improve the distribution of its products in Europe, specifically in the industrial sector of particle board and plywood.

Gelsenchem Chemical Products GmbH is a privately owned company that distributes since more than 20 years chemicals to a wide range of industrial partners in Germany and Europe.

Gelsenchem Chemical Products GmbH is a leading market player in its segments and acts as flexible and reliable link between producers and end-users.

ProPHOS Chemicals and Gelsenchem Chemical Products GmbH will collaborate in a joint effort to produce and distribute flame retardant products in order to improve the performance and the fire resistance in the particleboard production sector.

ProPHOS Chemicals is a flame retardant manufacturer with long experience in the industry, offering innovative products developed through technological know-how.

We are happy to collaborate with Gelsenchem Chemical products GmbH, which will allow us to improve and develop the European market thanks to the distribution network, providing expert advice and valid assistance for customers.
