Gold EcoVadis Medal for ProPHOS Chemicals

The company achieves Gold Medal from EcoVadis in Sustainability Rating

San Giovanni in Croce, 08/30/2023 – **ProPHOS Chemicals** has obtained the **EcoVadis Gold Sustainability Rating**.

The company has undertaken a company's performance evaluation in terms of Corporate Social Responsibility (CSR), through the international rating provider EcoVadis, obtaining an **overall score of 76 points** out of 100.

EcoVadis is a leading provider of sustainability ratings that assesses corporate performance in terms of CSR (Corporate Social Responsibility), focusing the analysis on four key performance areas: Environment, Labor & Human Rights, Ethics and Sustainable Procurement.

Specifically, EcoVadis' annual assessment focuses on 21 issues, or criteria, grouped into the four above-mentioned themes. These criteria are based on **international sustainability standards** such as the Ten Principles of the UN Global Compact, the International Labour Organization (ILO) conventions, the Global Reporting Initiative (GRI) standards, the ISO 26000 standard, the CERES Roadmap.

Today **ProPHOS Chemicals** wants to invest further resources towards a **path to increase its sustainability according to the most recognized standards** and best practices of the sector, in particular according to the most used ESG rating (Environment, Social, Governance) in the world: EcoVadis.

The evaluation demonstrates an **advanced level in terms of corporate sustainability**, therefore the company was awarded the **gold medal**, which places it in 5% of the best companies.

"The result testifies the importance of the values that mark ProPHOS Chemicals"

The achievement of this recognition **confirms the important investments and proactive actions that the company has undertaken over the years**, made possible thanks to an active participation in the vision and values of by all members of the company.

ProPHOS Chemicals is a dynamic and innovative Italian company, located in Cremona, that operates in three distinct production sectors:

- **fire protection**, as a manufacturer of extinguishing powders for all classes of fire (A, B, C and D).
- **agriculture**, through the production and distribution of fertilizers in microgranular and liquid form.
- **flame retardants**, microgranular solutions used primarily for the production of particle board and plywood panels.

The deep experience gained over the years and a highly qualified team, allow the company to consolidate its presence in the national and in international markets, with high-quality products and services able to meet the different needs.
